Dear Sr. Hye Yeong

Thank you very much for your nice card of Toledo, your kind words of good remembrance and your abstract of your dissertation. It looks very good and it shows you have done a lot of good work on the Scripture. I am sure you will make it bear fruit in the service of the Spirit who changes the heart.

Thank you also for your prayers. I need them all to let God work through my mistakes.

Being Provincial has its good and bad moments, its consolations and its pains too. We are only instruments, after all. So, continue praying for old friends. I pray for you and wish you good work for your Province too. Are you coming over to Japan any time?

Yours in Christ

A. Nicolai
